Overview

What is the business partner for legal?

UnitedLex is a strategic partner that co-creates innovative legal solutions with clients to address complex challenges, reduce risk, unlock revenue opportunities, and maximize business value. By aligning with each client's unique business context, legal function, and industry dynamics, UnitedLex supports legal teams to drive enterprise success.

Our expert teams bring deep experience in legal and AI innovation, delivering insights and outcomes that matter to you.

Why partnerships matter for legal teams?

Partnerships are powerful because they enable legal teams to operate with greater agility and impact. By collaborating with trusted partners and peer communities, legal departments gain access to specialized knowledge, scalable resources, and innovative tools that enhance legal strategy.

In today's fast-changing world—with complex regulations, tight budgets, and AI advancements—partnerships are force multipliers. They help shift the focus from routine tasks to strategic work, enabling better decisions, greater efficiency, and stronger alignment with company goals.

Keynote

Dr. Daniel Susskind is a bestselling author, a Research Professor in Economics at King's College London, and a Senior Research Associate at the Institute for Ethics in AI at Oxford University. He explores the impact of economic growth and technology — particularly AI — on work and society.

Panel Topics

Strategic Partnerships in IP

How do you build value while adapting to change?
Partnerships are valuable in any business endeavor, but when it comes to IP, they are essential.

Ask the Experts

A double act with Chris Fowler and Max Hubner covering (almost) everything that you've always wanted to know about but were afraid to ask leadership.

Evolving Litigation Leadership

From case strategists to strategic business partners, litigation leaders are redefining their roles. What tools and techniques are legal teams using to create value for the business?

The AI Advantage for Law Firms

The most competitive law firms are adopting new technology tools to future-proof their operations and refine their offerings for clients. What do those strategies look like?

Trusting AI in Contracts

New technology will completely transform the contracting process. How much trust can we put in AI and what is the risk associated with a potential miss?

New In-House Counsel Toolkit

What are the pros & cons of establishing new technology partnerships? Modern in-house counsel must be strategic when considering AI tools like Chat GPT, Harvey, and more.

Building Legal's Value to the C-Suite

Legal doesn't need to be the bottleneck of business. How can Legal teams be a better partner to overall business goals?
