Booster Shot: How Legal Departments are Driving Value in Life Sciences

In this new report, we delve into the legal departments of today’s leading life sciences companies. Through a third-party blind survey of over 100 senior legal and operations leaders—including CLOs, GCs, and legal directors—we examine the key challenges and priorities shaping legal ops, IP strategy, and litigation management across the industry.

Saving Money Through Smarter Legal Invoice Review Processes

Anything legal departments can do to squeeze extra money from programs instead of reducing headcount is a win for everyone. A well-crafted invoice review program can save money, while addressing some the biggest budgetary and spend reporting challenges.

UnitedLex VP of Intellectual Property becomes the new Chair of the State Bar of Michigan IP Law Section

We’re proud of our very own VP of Intellectual Property [LeKeisha Suggs](#) for being voted in as the new Chair of the State Bar of Michigan IP Law Section.

It’s amazing to work alongside such inspiring team members whose impact extends far beyond the company - not only through the work they do with clients, but also in the way they help shape the professional community around them.
